BRINGING LIFE TO SPACE

Chairman's Message

" We welcome projects of all sizes and we are committed to deliver the highest level of value and service to all our clients, because we strongly believe that today's project is tomorrow's legacy. "

MR. NASHAT SAHAWNEH
CHAIRMAN

*Appendix 1.1

Executive Summary

Al Hamad Industrial Company (**HIC**) was established in 1998 in U.A.E and 2004 in Bahrain and Jordan as the manufacturing arm of the group's construction companies.

With a vast production capacity, well-built infrastructure, high tech computerized machinery, and organized professional team; the production conforms to ISO 9001 certification and regularly undergoes rigorous quality control system.

Hand in hand with an adept team of engineers, architects and draftsmen, we implement innovative and ingenious concepts varying from basic to intricate and we are highly capable of handling project design and custom designing for project requirements with special application and specifications.

With these capabilities in place, the company can provide architects and consultants vast space for flexibility thereby, turning ideas to reality.

HIC comprises of specilized divisions carrying our works for turnkey projects. *Kindly refer to Appendix 1.1

Aluminum Division was established in 1996 as an in-house service for the construction divisions. To date, 300 + projects have been completed using the same system in various applications ranging from Commercial, Residential, Industrial and other turnkey projects.

Joinery Division specializes in interior design and decoration strengthening Al Hamad Group of Companies to offer its clients complete turnkey solutions. Our range of production lines such as: Kitchen Line, Door Line, Decoration Line and Painting Line; offering endless possibilities for clients, architects and consultants to explore.

Glass Division specializes in the production of structural glazing and double glass unit lines.

Marble Division was setup in 1998, equipped with the latest equipment and specializes in design, processing and installation for all types of marble with the division's qualified team always at hand to provide creative designs reflective of its great capabilities.

Metal Division specializes in two production lines : Stainless Steel Line for stainless steel works & installation, interior stainless steel decoration and all types of stainless steel cladding. Steel Line for steel works and installation.

UPVC Extrusion Division specializes in a wide range of profiles for architectural applications such as doors, windows, partitions, shop fronts, glazing applications like curtain wall, scaffolding sections and many more.

A/C Ducting Division specializes in ducting manufacturing and assembling.

PROCESS FLOW CHART

Quality Policy Statement

The guiding principle at Al - Hamad Industrial Company is providing products / services conforming to clients' requirements and promoting improved concepts / ideas, thereby enabling Customers to secure an excellent return on their investments.

This is achieved by: -

- Having effectively communicated and managed Quality Management system.
- Enhancing employees' skills through regular training.
- Encouraging development of new ideas and proposals from employees and Suppliers/Subcontractors.

- Continually improving based on regular monitoring of all divisions, departments and sites for compliance to the requirements of the Quality Management system.

Complying with the requirements of the Quality Management system shall be obligatory for all employees of Al Hamad Industrial Company.

Mr. Farhan Sahawneh
General Manager

Health and Safety Policy Statement

To provide our employees the cover required to ensure that a safe and competent job is carried out by Al Hamad Industries employees both in the workshop and on site.

The management recognizes its duty to its employees under Article (1) of the Ministerial order (32). To this extent, only items with an internationally recognized standard are accepted to protect our employees on site.

If our employees do not utilize these items, they will first be warned in writing and if they fail to take notice of the warning they will be removed from site. Continued failure to observe company safety regulations and so endangering their fellow employees will render them likely to be summarily dismissed.

In our workshops, hazards are clearly marked, as is the Fire Fighting equipment. All the signs are written in accordance with Article (2) of the aforementioned order, Arabic first, then in a language used by most of the workers, in this case, English.

Before any employees uses machine, be that on site or in the workshop, the employee is trained in the use of the machine to ensure that accidents are kept to an absolute minimum.

If any accident occurs, first- aid boxes are available on all the major sites and are carried by the foreman for our smaller jobs.

All environmental issues are taken into account to produce a safe and healthy working environment for our employees as possible.

Mr. Farhan Sahawneh
General Manager
