## WAREHOUSES AND INDUSTRIAL SHEDS

Precast & prestressed Concrete Specialist

[www.concretec.ae](http://www.concretec.ae)

## INTRODUCTION

Concrete Technology LLC is associated with sophisticated technological giants from all over the World and maintains a leading position in the precast technology with an aim of increasing its Customer base and is dedicated in providing superior quality products that achieve total client satisfaction by maintaining high standards at reasonable value. The company was established in 1997 with modest production capacities. Today, the company is considered as one of the largest precast and prestressed concrete manufacturing companies in the UAE.

**Concrete Technology Office in Ras Al Khaimah**

With a wide range of products and Services, Concrete Technology LLC undertakes the construction of commercial and residential buildings, villas, offices, accommodations, culture and educational buildings, warehouses and industrial sheds, multi-storied car parks, and boundary walls.

With a team of highly qualified engineers, architects, draughts men, surveyors, and foremen, and large number skilled and non-skilled workers, we pride ourselves on strong ethics from design, production, and installation of precast structures to handing over to clients.

**Concrete Technology Office in Dubai**

Product Superiority and Technical experience are achieved through proper detailing of all stages of construction of the works from initial stage of preparing preliminary proposals, design, detailed drawings and construction methods. Concrete Technology LLC is a member of the American Concrete Institute (ACI), and Precast / Pre-stressed Concrete Institute (PCI).

Quality and Customer Satisfaction is our priority. Therefore, the company invested in the most advanced in-house testing and quality control facility and quality assurance as well from receiving the material till delivering the final product to site and after erection as well. The Company has a Quality Management System certified to ISO 9001-2008
